

# ART 236 : Digital Photography I

This introductory course explores technical aspects of digital photography. Utilizing Photoshop, digital SLR cameras and apps, technical topics cover digital capture, image editing, and digital output. Students become familiar with historic and contemporary photography. Critiques are the central forum for students to develop their ability to speak about their own work and that of their peers. DSLR and (not zoom) lens- limited numbers are available- or manual camera apps are required.
